

Measure the line with a ruler and record the measurement in CM

I can use a ruler to measure.

A. \_\_\_\_\_ Length = \_\_\_\_\_

B. \_\_\_\_\_ Length = \_\_\_\_\_

C. \_\_\_\_\_ Length = \_\_\_\_\_

D. \_\_\_\_\_ Length = \_\_\_\_\_

E. \_\_\_\_\_ Length = \_\_\_\_\_

F. \_\_\_\_\_ Length = \_\_\_\_\_

G. \_\_\_\_\_ Length = \_\_\_\_\_

Now can you put the lines in order shortest to longest?

Shortest  Longest

--	--	--	--	--	--	--	--

Date: \_\_\_\_\_

I can use a ruler to draw lines (length)

Draw the lines to the measurement

2cm =
